Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.We are faced with a Universe that is atomically integrated, and interwoven, going through un-interrupted evolutionary changes, with human beings and other biological beings as inseparable integral parts. The incredibly unexplainable miracle of the Universe is that it is law-governed, acting as if it were moving completely in accordance with a conscious design. This is a contentious argument that is undeniable by believers, non-believers, and agnostics as well. There is nothing about the Universe that is acting chaotically. We could literally refer to millions of things that we encounter on a daily basis, and we could see that each unfolds according to a relatively regular pattern. Einstein believed that God does not play dice with the Universe. The laws of the Universe are the secrets of the Universe that have to be discovered, regardless of how they came about, and what philosophical preferences we may hold. The resolution of practical problems, related to everything we do in life, will force us to go through the trouble of discovering these laws. All governments, with different religious orientations, possessing nuclear bombs, had to go through discovering the laws of atomic structures to do it. There are no Christian, Jewish, Islamic nuclear bombs. All bombs are non-religious, made out of the secrets of the Universe. There is no other way. Each science studies certain features or behavior of the Universe. But, it is the human beings, completely atomically integrated, and interwoven with nature, who are attempting to discover these behaviors, and laws. It makes it difficult because, the so-called investigators are inseparable parts of the processes themselves. Nothing in the Universe, beginning with the sub-atomic particles, through the stars, and Planets, can live by itself, for...
