Taylor Francis Ltd, United Kingdom, 2015. Paperback.  
Condition: New. Language: English . Brand New Book \*\*\*\*\*  
Print on Demand \*\*\*\*\*.The chapters in this volume are the edited versions of invited addresses to the XXVI International Congress of Psychology held in Montreal in August 1996. As one major goal of the Congress was to promote communication among specializations in scientific psychology, the speakers were asked to survey their research area and present their own work in a way that would be accessible to their colleagues in other areas. Another purpose of the meeting was to bring researchers together from different parts of the world, reflecting their different approaches to the scientific study of mind, brain, and behavior. Consequently, the eminent researchers who have written the twenty-six chapters included in the present volume were drawn from universities and research institutes in North America, Europe, Japan, Russia, Israel, and New Zealand. The chapters cover a range of topics in human and animal experimental psychology. The first section deals with psychobiological processes - the interplay of body and mind in determining intelligence, stress, and pain. The next five chapters address current issues in neuropsychology and neuroscience, including the neural correlates of attention and vision....
